Ian,

RE: BYFIELD MEDICAL CENTRE PLANNING APPLICATION DA/2017/0826 (AMENDED).

I continue to be contacted by a number of my constituents with regard to the above planning application.

There is a real need for a larger building for the medical practice in Byfield. The current building is now too small and it does not have the capacity to deal with the number of people that use it. From my understanding, it is no longer fit for purpose. If the practice is unable to relocate to a new larger premises, they will have to close the list to new patients, meaning that anyone moving to the locality will be required to register with a different practice.

Given the background to this matter, establishing a brand new and modernised medical centre would appear to offer the best solution to resolve this problem.

Furthermore, I know that residents from the village overwhelmingly support this application and the opinion of residents should be paramount when deciding on such an important matter.

With this in mind, I would like to once again support this planning application.

Yours sincerely,
